

# Play or Not?

## The Economy is Tough, so what are you doing about it?

You can stare at the TV and wait for the time to run out, or you can get in the game and go for the goal line yourself! Which style fits you best?

Or are you waiting for the government to bail us out like they did Wall St.?

*(I wouldn't hold your breath on that last option).*

Keep reading for a better idea!

Let me ask you this, would it help if you got a \$100 check and a \$200 Walmart card every time you find two people that need some help and show them how to do the same thing we are? Trust me, they are ALL OVER THE PLACE if you open your mouth.

**No I'm not joking, it's being done every day and it's not that hard!**

It's as simple as buying \$200 worth of groceries from MPB Today and paying \$10 for a recruiting website like mine, then sharing what we are doing with a couple of friends. No selling involved, I absolutely guarantee that almost anyone you can find will be consuming groceries already. All we do is show them how to get them free.

It's a one time payment, so no one ever quits. I had one guy that was dormant for a month and filled his first group of six without getting a single referral of his own. When he got the email telling him he was starting a second group, he got active in a hurry. All he needs now are two direct referrals and he gets paid \$300 for the first group and has the next one already moving toward a payout too. You never need more than two direct.

It's no more complicated than that, so don't get bogged down in all the structure and hype, just get two that will get two and get paid. I had my two in a couple of days, can you do that too? Do it once and it becomes easy. If you want in, visit this website:
